Assembly Preparation

Before Beginning:

Unpack all hardware bags and components to ensure you have all parts. Take note of bolt hardware size differences and components that may have directional labels (Example: TOP or FRONT).

Depending on your furniture product, foam, packing dust, or residual film or finish may be present on the components. This is normal and can be wiped clean using a non-colored, lint-free dry cloth.

Read the assembly instructions, cover-to-cover. Save any **Care and Maintenance** instructions pages for after the assembly has been completed.

It is always recommended to have 2 adults on hand for assembly.

Do not assemble on hard, abrasive flooring or carpeted surfaces that can damage or get caught in the components during assembly. It is essential to put a protective pad or glides between the feet of this furniture and the flooring if used on these surfaces.

Assemble on a clean non-marring surface (such as the product's packing foam).

Do not discard any packaging until the product has been fully assembled.

In case of missing parts, please contact your nearest World Market store or call our customer service call center at 1-877-967-5362.

WARNING: Small parts are a choking hazard. Adult supervision is required before, during, and after assembly.

How To Fluff Upholstered Products

Cushions tend to shift in the box and become compressed during shipping; or under normal use, some cushion designs may compress more easily. If cushions appear compressed, wavy, or wrinkled, they can be easily “fluffed” by hand. Loose cushions can be removed and patted firmly by hand **on all sides and edges** until appearance is improved. Fixed cushions can also be patted firmly by hand until appearance improves. **After initial unboxing, allow 24-48 hours for cushions to fully rebound to their normal shape.**
